

# Foster care and probation systems are most likely to affect Black and AIAN youth

Average foster care / probation rates per 1K youth in Los Angeles County

Indicator: Children in foster care or probation are defined as the average rate per 1000 youth ages 0-20 in foster care or probation based on quarterly point-in-time counts. Race Note: API = Asian or Pacific Islander; AIAN=American Indian or Alaska Native. Data Source: Catalyst California's calculations of California Child Welfare Indicators Project, LA County Point in Time Counts for Foster Care and Probation, UC Berkeley, 2023.
