

Antelope Valley youth are least likely able to access base-building organizations

Indicator: Access to advocacy and base-building organizations is defined as the average percentile (%ile) access youth (ages 0-24) in each region have to organizations that are focused on youth advocacy and base-building based on youth population and organizational density. A higher percentile indicates higher access. **Data Source:** Catalyst California's calculations of the USC Equity Research Institute, California Health and Justice for All Power-Building Landscape: Defining the Ecosystem (2019); IRS Business Master File Extract (2023); and Cause IQ Nonprofit Directory (2022).
