

Youth in the South, East and Metro regions are more likely to be undocumented or live with undocumented family members

Indicator: Youth in mixed status families is defined as youth (ages 0-24) who are predicted to be undocumented themselves or live with undocumented family members. **Data Source:** USC Equity Research Institute's calculations of American Community Survey Public Use Microdata, 2017-2021 5-Year Estimates, from IPUMS USA and the Survey of Income and Program Participation, 2014.
