

# Youth face the highest regional disparities in access to base-building organizations

## Average disparity between regions by indicator

Access to  
Base-Building  
Organizations

Living Wage

On average, there is a 51.8% disparity in access to base-building organizations between regions.

The length of the bar shows the average disparity between regions for each indicator.  
The longer the bar, the greater the disparity.  
See [boldvisionla.org](https://boldvisionla.org) for definitions and methodology.
